# anglia lighting

For many years Anglia Lighting have been dedicated to providing a broad range of products to manufacturers, contractors and installers of LED lighting systems with the emphasis on inventory, technical support and design guidance. Backed up by Anglia's in-depth stock profile on key product lines from market-leading suppliers, a partnership with us can be a winning combination.

## Why us?

- Market-leading, lighting-class LEDs from premium manufacturers
- LED drivers from major semiconductor suppliers
- A wide variety of secondary optics and thermal products together with interconnect systems
- In-depth stock profile on key product lines
- The backing of comprehensive technical support
- Access to design team providing expert resources
- Availability of starter kits, evaluation boards and reference platforms
- Intelligent lighting management through M2M technology
- Links to PCB manufacturing partnerships
